STORE FULFILLMENT

Efficient stock management for distribution to physical shops

The Store Fulfillment module has been **designed for companies that need real-time control over inventory** of their warehouse and physical shops. Additionally, it syncs supply operations throughout the distribution network such as picking, replenishment, transfers between shops and returns.

BEST-IN-CLASS FEATURES OF STORE FULFILLMENT

-
WMS integration with point of sale (POS) terminals
-
Automatic replenishment of shop items depending on stock level
-
Task generation after an in-shop sale or return
-
Transfers of in-warehouse items to shops or between shops
-
Warehouse management with cash-and-carry model
-
Quick in-shop stock counts
-
Automatic reports (stock level by shop or stock on the way, etc.)

What benefits does it provide?

Inventory always updated in warehouse and shops

Coordinated transfers between shops

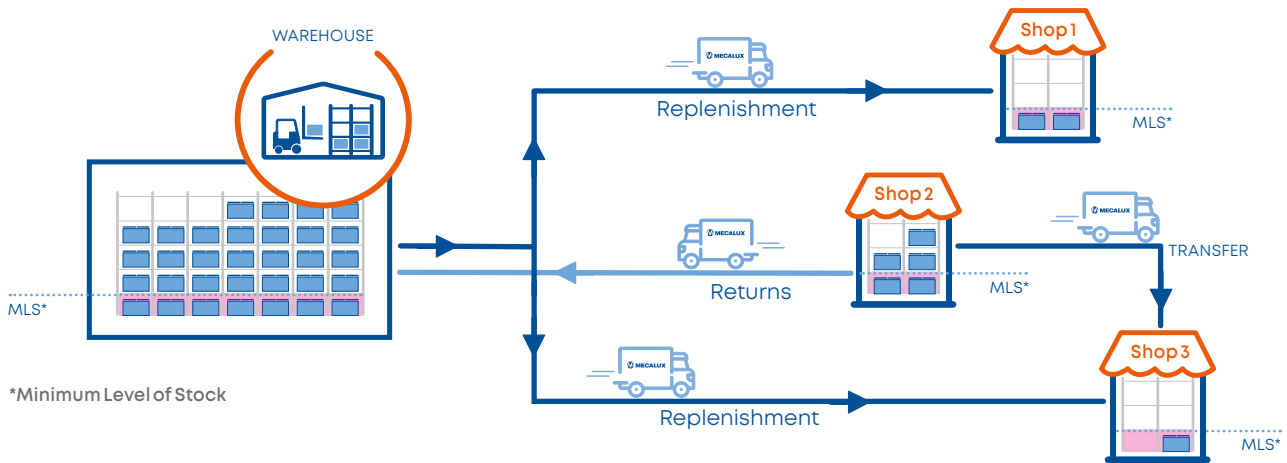

Stockouts eliminated in shops

Efficient customer returns management

Task synchronisation between warehouse and shops

End-to-end distribution visibility in real-time

LOGISTICS PROCESS OF THE STORE FULFILLMENT MODULE

Store Fulfillment adapts to different shop types

Central warehouse with management of independent shops.

A distribution centre serves one or more shops in different geographical locations. Shops are replenished with goods available in the distribution centre. The system controls returns and transfers between shops.

Store Fulfillment synchronises inventory and workflows to ensure optimal stock management between the central warehouse and the physical shop network

Warehouse with direct sales. Customers pick the products they need from the shelves and pay at the counter. In this case, the shop and warehouse inventory are managed separately.

Warehouse with management of integrated shop.

Customers order the products they need at the shop counter. Then, operators are responsible for locating them in the warehouse. Once the sale is made, the system updates the inventory automatically.

Why choose Mecalux Software Solutions?

60+ years of experience in warehousing solutions, with operations in **70+ countries**

500+ engineers exclusively dedicated to developing logistics and supply chain software

1,200+ facilities in **36 countries** managed with Mecalux software solutions

Software continuously developed and updated through major R&D investments

Multilingual technical support available **24/7, 365 days** a year
